

AWS + N2WS

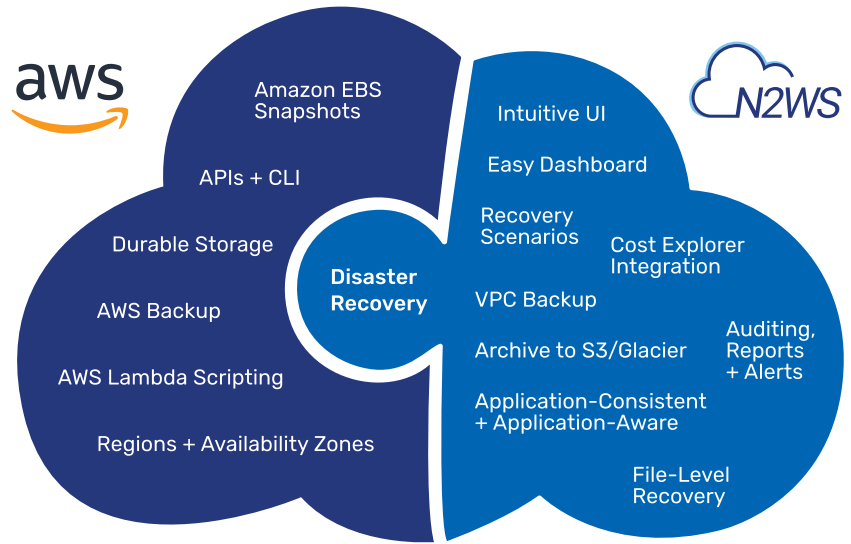

Empowering IT teams to focus on innovation, while keeping their AWS environments secure, available, and compliant

Completing the cloud puzzle

Amazon Web Services (AWS) helps businesses build and scale on the cloud. N2WS helps those businesses manage and protect their critical workloads. Together, N2WS and AWS empower organizations to focus on innovation, while keeping their AWS environment secure, available and compliant.

ISV Accelerate partner

N2WS is top-rated in AWS Marketplace and a member of ISV Accelerate, an exclusive co-selling program, bringing together N2WS + AWS sellers in order to close more deals.

N2WS protects core AWS services

AWS CPPO and SPPO program

The AWS CPPO & SPPO program offers a tiered discount to eligible N2WS partners for 1-, 2- or 3-year licenses, allowing partners to deliver enterprise AWS data protection at scale to customers through the AWS Marketplace.
