

The promise of the cloud is a more agile, cost-effective and disaster-proof way to scale. However, this promise comes with some fine print - AWS and other public cloud providers guarantee the safety of your infrastructure but not your data. N2WS is the leading backup, disaster recovery and archiving solution for AWS, including support for: Amazon EC2, Amazon EBS, Amazon RDS, Amazon Redshift, Amazon Dynamo DB, Amazon EFS, and Amazon S3. Manage cloud data from a single easy-to-use console.

MADE FOR THE AWS CLOUD

Hosted in your AWS environment giving you complete control over your data. Data never leaves your cloud.

AGILE DATA MANAGEMENT

Easily transfer data between different regions, accounts and storage tiers for efficient data lifecycle management.

EFFICIENT DISASTER RECOVERY

1-click disaster recovery gets you back up and running in less than 30 seconds for 100% up time.

Why N2WS Backup & Recovery?

RAPID, GRANULAR DISASTER RECOVERY

Protect your cloud from ransomware, outage or data loss with near-zero RTO. Create disaster recovery sites around the world in a few clicks and leverage cross-account recovery for enhanced security.

APPLICATION-CONSISTENCY, 100% UPTIME

Perform application-consistent backups without taking systems offline, with support for MySQL, MongoDB, PostgreSQL, SQL Server, Exchange, Active Directory, SharePoint, and SAP.

AMAZON S3 REPLICATION

Protect static data on Amazon S3 by automatically syncing objects in S3 buckets across AWS regions and accounts.

MANAGE THE FULL DATA LIFECYCLE

Automate transfer of EBS snapshots to Amazon S3 or Glacier/Deep Archive for long-term retention and cost savings. Leverage any S3 storage class to suit your needs and boost cost-savings with automatic snapshot deletion during the archive process.

UPGRADED DR WITH RECOVERY SCENARIOS

Orchestrate recovery of an entire application or service. Pre-configure a set of resources, define order of recovery and bring workloads back in seconds. Schedule dry runs to improve DR planning and check for potential issues.

Features at a glance:

Backup and Recovery

- ✓ Flexible policies and schedules
- ✓ Volume and instance level backup & recovery
- ✓ Snapshot explorer with file & folder-level recovery
- ✓ Application-consistent backups
- ✓ Sync Amazon S3 buckets automatically
- ✓ Supports all AWS GovCloud regions
- ✓ Capture & Clone VPC settings

Disaster Recovery

- ✓ Rapid 1-click restore from any outage in seconds
- ✓ Cross-region backup and disaster recovery
- ✓ Cross-account backup and disaster recovery
- ✓ Configure and schedule Recovery Scenarios
- ✓ Supports custom encryption keys for DR
- ✓ Cross-region disaster recovery for Amazon EFS

Cost Optimization

- ✓ Use Cost Explorer to monitor EBS backup spend
- ✓ Monitor cost savings from your dashboard
- ✓ Start/stop non-critical instances during “off” hours
- ✓ “Zero EBS Snapshot” option for archived data
- ✓ Archive data to Amazon S3/Glacier/Deep Archive
- ✓ Intelligent, scalable worker instances

Onboarding & Admin

- ✓ Easy install with a CloudFormation template
- ✓ Designed for multi-tenancy and IAM support
- ✓ Integrate existing tag schema with custom tags
- ✓ CLI and RESTful API for custom integrations
- ✓ Alerts by email / Amazon SNS and custom reports
- ✓ Technical support for all paid plans

N2WS supports the top core AWS services:

Amazon EC2

Amazon EBS

Amazon RDS

Amazon Redshift

Amazon DynamoDB

Amazon EFS

Amazon S3

“It has allowed us to save over \$1million in the management of AWS EBS snapshots over the course of 2 years.”

N2WS + AWS:

N2WS was founded in 2012 with the mission of providing enterprise-class data protection for production environments deployed in the public cloud and was **meticulously built from the cloud up** to meet the backup & DR requirements of the most demanding customers. Now N2WS is the leading enterprise-class backup, recovery, and disaster recovery solution specifically built for Amazon Web Services (AWS).

Let's talk:

AWS is the leader in the public cloud and we're the top-rated backup & recovery solution for AWS with locations around the globe. Keep your data safe and always available with near-instant disaster recovery. Talk to one of our storage experts about the best solution for your company and how you can save up to 60% on backup costs.
