N2WS

MONTHLY WEBINAR SERIES

Episode 3:

COST SAVINGS with
RESOURCE CONTROL

HOSTED BY

Sebastian Straub
Principal Solutions Architect

Alon Maimoni
Chief Revenue Officer

SAVE MONEY WITH RESOURCE CONTROL

↑

Learn the power of automated instance hibernation for major cost savings

Cloud waste is a growing problem ↓

53%
OF ENTERPRISES SURVEYED ARE **STRUGGLING TO SEE CLOUD ROI**

42%
OF CIOS AND CTOS CONSIDER **CLOUD WASTE THEIR TOP CHALLENGE**

75%
OF ORGANIZATIONS REPORT AN **INCREASE IN CLOUD WASTE**

54%
OF CLOUD WASTE STEMS FROM A **LACK OF VISIBILITY** INTO CLOUD COSTS

32%
AVERAGE AMOUNT OF CLOUD BUDGET THAT **WENT TO WASTE IN 2022**

A main contributor to cloud waste is running idle instances, due to: ↓

1
Misconfiguration
Incorrect configurations can lead to unnecessary resource usage and cloud waste.

2
Overprovisioning
Allocating more resources than are actually needed results in excess cloud costs.

3
Forgetfulness
Idle instances left running due to oversight can add quickly to the cloud waste tally.

TL;DR on N2WS
